How to add public events to the Outlook Events Calendar

Creating events

Create a meeting invite in your own Outlook calendar for the upcoming Event/support group/training session etc.

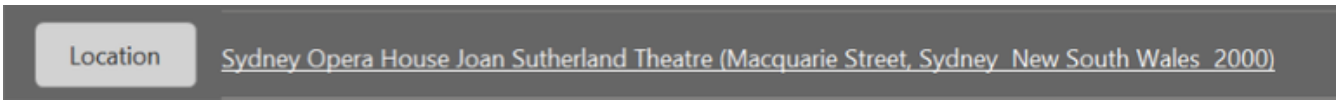

If the event is offline (i.e. not a Teams meeting), create it as a New Appointment

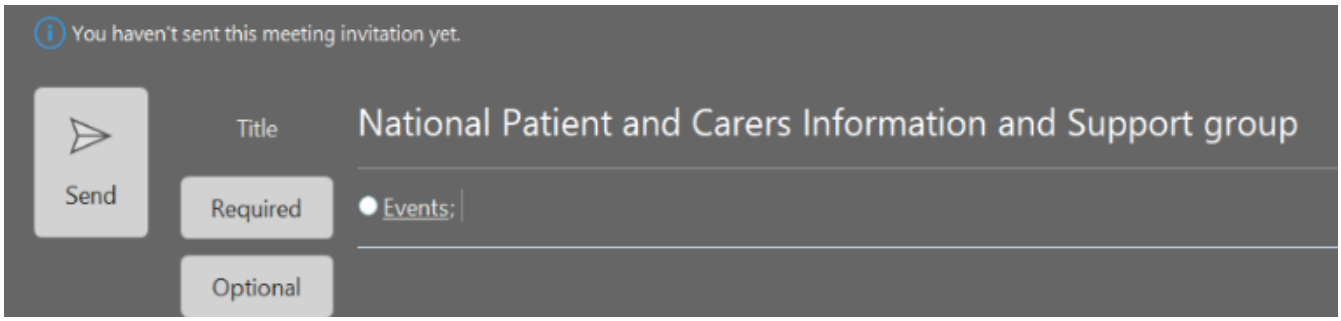

Format the title of the event as [State], [Suburb/s], Name of Support Group/Event. This will help with visibility in the event calendar display.

Check dates, times and timezones are correct

Enter the Location – this can either be free text or search

Invite the Events Calendar to the appointment (events@myeloma.org.au)

Event details

Enter the details of the event in the description with the following format

This Information and Support Group meeting will be run as a face-to-face.
Myeloma Australia is delighted to invite you to our face-to-face Information and Support Group for people living with myeloma, their family and friends. this is a great opportunity to meet and connect with other members of the myeloma community.

Important Information:
Please do not attend if you are unwell, have a temperature, cough or sore throat.

Please familiarise yourself with our Information and Support Group Agreement which outlines the expectations of group members to ensure it is a safe and supportive space.

For directions: Click here.
Topic: General discussion.
Questions or inquiries please contact:
XXXXX
XXX Myeloma Specialist Support Nurse.
E: XXXX
Ph: XXXX
SMS ONLY: XXXX

If the meeting is a Teams meeting, you can create it in your own Calendar as a Teams Meeting and the Teams event login details will be automatically included in the invitation. You can also include the following text in the invitation.

This Information and Support Group meeting will be run as an online event.
Myeloma Australia is delighted to invite you to our online Information and Support Group for people living with myeloma, their family and friends. this is a great opportunity to meet and connect with other members of the myeloma community.
PLEASE NOTE: Meetings are now run via Teams not Zoom.

Teams is a well-used program run by Microsoft. If you already use a Microsoft/outlook account, you can join using the first link.

You do not need to download Microsoft Teams to join us on your computer. Please click on the link below that says, "JOIN ON THE WEB" and enter the Meeting ID and Passcode. You will then enter the lobby like you would in ZOOM.
If you would like to use your phone, you can enter the same way as described above or you might find it easier to "Download Teams" and create a Microsoft account for free.

Please familiarise yourself with our Information and Support Group Agreement which outlines the expectations of group members to ensure it is a safe and supportive space.

This meeting will be run by Myeloma Specialist Support Nurses, **XXXX.**

****This Group is for partner's and carer's only****

To RSVP and for inquiries please contact:
XXXX
XXXX Myeloma Specialist Support Nurse.

Ph: XXXX
SMS ONLY: XXXXX

Once you have filled in all of the details, send the appointment/event invitation. The event will automatically appear in the events calendar so please make sure all of the details are correct.

IMPORTANT: Use your "notepad" app on your computer to cut and paste the correct event details and blurb before you paste it into your calendar invite
